

SPOT THE DIFFERENCE...

...flat, square and conventional,
or flowing, smooth and elegant?

STAND OUT FROM THE CROWD AND MAKE A
STATEMENT IN YOUR STREET. CURVED GLASS FROM
GLASSHAPE LETS YOU REALISE YOUR DREAMS AND
IMPROVE YOUR VALUE.

THINK OUTSIDE THE **SQUARE**

Obstructed. Broken views.

Elegant. Clean. Clear.

Flat. Unexciting. Faceted.

Flowing. Beauty. Style. Class.

CURVED GLASS FROM GLASSHAPE LETS YOU REALISE YOUR DREAMS

Restrictive. Ugly. Broken Views.

Unrestricted. Awesome.

Square. Awkward. Unsightly.

Wow! I want it. I want it curved!

No thanks. I want it curved. I want it now!

There you are. Just the way you want it. Just the way you love it! Thanks Glasshape, I love the views you offer.

So what about your home?

TemperShield® curved toughened glass by Glasshape offers home owners the new fashionable alternative to transform their ordinary and obstructive faceted windows into wide open spaces with unobstructed and seamless views by way of retro-fitting curved toughened safety glass windows made from ultra-clear, low-iron glass that maximizes the view and makes a statement of style.

It's quite simple, just pick up the phone and call us today on 0800 883 336 for a free onsite consultation, or log onto www.glasshape.co.nz and see some amazing examples of how curved glass can transform your home.

When used inside a home, a gently curved frameless glass balustrade along an upper-storey or balcony enhances the sense of spaciousness, particularly in a soaring atrium.

When used in picture windows, we can double glaze the window using special Low E coated glass which greatly increases the thermal resistance of your home, building or studio, keeping it cooler in the summer and warmer in the winter!

We manufacture the widest curved glass panels in Australasia at up to 2.44 metres wide! Yes, that's one single piece of glass over 2.4 metres wide with no joints. Enhance the value and style of your property by investing in the unique architectural feature of curved glass. Think clear. Think clean. Think space. Think light.

Call us today, we'll make your day. We'll bring you light, space and total satisfaction!
